

## Learning Journey

Sc1/4.1a observe changes across the 4 seasons

Sc1/4.1b observe and describe weather associated with the seasons and how day length varies.

## Year 1: Seasonal Changes Spring to Summer

Key Vocabulary	
<b>seasons</b>	In the UK, there are four <b>seasons</b> each year. They are autumn, winter, <b>spring</b> and <b>summer</b> .
<b>spring</b>	In <b>spring</b> , the <b>weather</b> starts to get warmer. Leaves begin to grow and some trees may blossom (have flowers). Days start to have more <b>daylight</b> hours.
<b>summer</b>	In <b>summer</b> , the <b>weather</b> gets hotter. Days in <b>summer</b> have the most <b>daylight</b> hours. Trees are full of leaves and there are lots of flowers, bees, butterflies and other insects.
<b>weather</b>	The <b>weather</b> includes the temperature outside, how windy it is and rainfall (how much it rains). We can also describe cloud, snow and sun.
<b>daylight</b>	<b>Daylight</b> is when it is light outside. The amount of <b>daylight</b> changes with each season.

### The Four Seasons

**autumn**  
September  
October  
November

**winter**  
December  
January  
February

**spring**  
March  
April  
May

**summer**  
June  
July  
August

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June	July	Aug
Hours of <b>Daylight</b>	13	11	9	8	8	10	12	14	15	16	16	14
