

Year 4 Summer 1- Online Safety

Big Question

How can I be Safe Online?

Key Vocabulary for the unit:

Ad (short for advertisement): companies pay to have their website at the top of the list of search engine results.

Belief: Something we accept to exist or be true, usually without proof.

Bot: A computer program, also known as a Chatbot, that can act like a living thing e.g. 'Alexa' or 'Siri'.

Fact: Something that can be proven to be true by evidence.

In-app purchases: Extra content or services that are advertised and can be bought when you are using an app.

Influencer: A person who recommends products or services on social media.

Snippets: A short summary.

Companies use lots of techniques to try and encourage you to buy online.

Powerful knowledge/skills for this unit:

- ◆ To understand some of the methods used to encourage people to buy things online.
- ◆ To understand that technology can be designed to act like or impersonate living things.
- ◆ To understand that technology can be a distraction and identify when someone might need to limit the amount of time spent using technology.
- ◆ To understand what behaviours are appropriate in order to stay safe and be respectful online.

What I should already know from Year 3:

To know:

- ◆ That not everything on the internet is true: people share facts, beliefs and opinions online.
- ◆ The internet can affect people's moods and feelings.
- ◆ Privacy settings limit who can access important personal information, such as names, ages, gender etc.
- ◆ What social media is and that age restrictions apply.

All search engines work slightly differently. It is important to understand how the results are found and displayed.

We should behave safely and respectfully both on and offline.

Technology can be both a positive and negative distraction. If technology is making you feel sad or angry, or you are spending too much time on it, then try to find something else to do that doesn't involve 'screentime'.
